

UMAR BABAWURO ABUBAKAR

Gombe State, Nigeria | +234 707 210 5145 | ug23scs1044@gsu.edu.ng | github.com/Umarcomrd

PROFESSIONAL SUMMARY

Computer Science undergraduate at Gombe State University with hands-on backend development experience in PHP, MySQL, and JavaScript. Completed a software development internship and independently designed and built a full hotel management system from database to UI. Seeking an entry-level or internship developer role to apply and grow full-stack skills in a team environment.

EDUCATION

Gombe State University — B.Sc. Computer Science

2023/2024 – Expected 2027 | CGPA: 3.33/5.00 | Gombe State, Nigeria

CERTIFICATIONS

AI & Data Analytics — Nigerian Content Development and Monitoring Board (NCDMB)

24 April 2026 – 8 May 2026

- AI fundamentals, data analytics concepts, data interpretation, and applied AI problem solving

Web Development — GDG GSU Tech Academy (Cohort 1)

Completed 22 July 2025

- HTML5, CSS3, JavaScript, Bootstrap, responsive and frontend web design

Backend Software Development — Computer Professionals Registration Council of Nigeria (CPN)

Completed 31 October 2025

- PHP programming and OOP, MySQL database management, backend development

WORK EXPERIENCE

Software Development Intern — Geek Ink Innovation (Remote)

August 2025 – November 2025

- Completed backend development training, building applications with PHP and MySQL
- Applied Object-Oriented Programming concepts in PHP and practiced Laravel framework development
- Worked remotely with mentors and fellow trainees on practical development tasks and exercises

PROJECT PORTFOLIO

Online Hotel Management System — Sole Developer

April 2026 – Present | github.com/Umarcomrd/online-hotel-management-system

- Designed and built a PHP/MySQL web application automating room booking, reservation tracking, customer management, and hotel administration
- Implemented booking and reservation features, an administrative dashboard, and customer management modules
- Built interfaces with HTML, CSS, JavaScript, and Bootstrap; independently managed planning, testing, debugging, and version control
- Tech: PHP, MySQL, HTML5, CSS3, JavaScript, Bootstrap, Git & GitHub

QuizWave — JavaScript Quiz Application — Sole Developer

August 2026 – Present | Ongoing Development

- Built a quiz application testing core JavaScript concepts (objects, JSON, template literals, arrays, functions) using plain HTML, CSS, and JavaScript
- Features: interactive quiz interface, dynamic scoring, question management, real-time feedback, responsive design

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML5, CSS3

Frameworks & Libraries: Laravel, Bootstrap

Databases: MySQL

Tools & Platforms: Git, GitHub, Visual Studio Code, XAMPP

Other: Frontend & backend development, responsive design, DOM manipulation, JSON handling, software testing & debugging, system analysis and design, problem solving, project management
